

python_package.test.test
_bindings.graph

```
graph LR; A["python_package.test.test  
_bindings.graph"] --> B["python_package.test.test  
_bindings.get_test_data_path"]
```

A diagram showing a call from a graph object to a method. On the left, a gray rectangular box contains the text 'python_package.test.test' followed by '_bindings.graph' on the next line. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'python_package.test.test' followed by '_bindings.get_test_data_path' on the next line. Both boxes have a thin black border.

python_package.test.test
_bindings.get_test_data_path
